### Lubricating Oils

Will be used very freely for the next 6 or 8 months so we wish again to call the attention of all mill men and users of machinery to our TROPIC LUBRICATING OILS. For years this brand has been used on these islands and each season the demand has increased so that this year we have had to build a special oil warehouse at Kakaia to hold the hundreds of barrels of oils we have to carry in stock. Tropic Cylinder, Engine, Machine, Dynamo and Carbox Oils are the ones you want if you want everything to run smoothly.

### Benton Boiler Compound

This compound is entirely vegetable, contains no oil or acid, it being a natural preservative for iron or steel. It rots the scale in the boiler and gradually cleans same. After the boiler becomes clean, the Compound, if used according to directions, will keep the scale forming properties of the water in the form of solution or deposit, and the boiler can be kept clean, and the scale forming properties of said water can be blown out in the form of mud. It is a great saver of fuel as it will clean and keep clean any boiler. Let us send you a barrel on trial, no pay if not satisfactory. Packings, Waste, Compounds, Engineers' tools and supplies of all kinds.

## More Power Over In Interstate Commerce

Washington, Jan. 15.—The Interstate Commerce Commission today made public its thirtieth annual report. The feature of the report is the strong plea made that Congress uphold the hands of the Commission by amendments making the interstate commerce law more effective. The report says that the Commission a year ago called attention to the fact that in vital respects the present law has proved defective and inadequate, and that until further legislation is provided the best efforts at regulation must be feeble and disappointing. The existing conditions and the developments of the past year, it is added, render more imperative than ever before the necessity for speedy and suitable legislation. The report says that any railroad company can charge for its service whatever it pleases without any real power in the Commission or any other tribunal or court to limit the amount.

Shippers generally also have been practically unanimous in favor of a single classification of freights, uniform for all roads and all sections of the country, and reasonably stable when established. This general public dissatisfaction has been frequently expressed in resolutions of various national organizations, and at a conference in Chicago last November, attended by representatives from a number of national associations of manufacturers, merchants and others, a bill embracing the more important amendments recommended by the Commission was approved. This bill Senator Cullom has introduced, and the report significantly suggests whether continued failure to perfect lines regulating statute on reasonable lines will not soon result in a demand for the most drastic legislation.

The increase in railroad business the past year has been so great, the report says, that many carriers found their equipment inadequate for the service required. Revenues increased greatly, while railway failures fell off. The rush of business contributed to the improved observance of published rates and diminished the frequency of those practices which are made criminal misdemeanors by the statute.

### SADIE'S POPULARITY.

"What a favorite in society little Sadie Singleton is—with the men I mean. Yet she isn't pretty and her figure is bad. I suppose they like her because her disposition is so lovely."  
"Lovely fiddlesticks! They like her because somebody started the story that she is the favorite niece of a childless old uncle with a trunk full of copper stocks."—Cleveland Plain

### Sharkey's Broken Ribs.

Chicago, Jan. 16.—The Tribune says: Thomas Sharkey, the pugilist, is not recovering from the injuries received in his recent fight with Jeffries as rapidly as he desires. For some time he has been wearing around the body a strong elastic bandage intended to hold his broken ribs firmly in place. Saturday he found this bandage was not doing the work in a satisfactory manner and was compelled to have another bandage fitted, the second being much stiffer than the first. The pugilist found that the bandage allowed his broken ribs to protrude when he breathed and the second bandage was a necessity if they were to be held in their proper place. The task of fitting the bandage was severe and took two men some time to adjust it properly. An elastic bandage was also fitted to a shoulder which has been ailing since the fight.

### New Death Dealing Gun.

Washington, Jan. 15.—General Bunting, Chief of the Bureau of Ordnance of the Army, has received a report from Springfield of recent tests conducted there of different types of automatic machine guns. These reports of guns tested were Gatling, Colt, automatic, Maxim and Hotchkiss, and a new invention called the Carr gun. The Carr gun presented several novel features. It is the invention of Howard Carr, champion offhand rifle shot of America. The aim of all inventors of machine guns has been to produce a gun of great lightness, one that can be carried by one man and fired automatically. It is this feature of the Carr gun which has appealed to the Ordnance Department. Its weight is only twelve pounds. Another feature of the gun is the use of a drum feed instead of a belt feed. To fire, a continuous trigger is held back and the gun operates at the rate of 450 shots per minute. In the preliminary test at Springfield the Carr gun proved satisfactory.

### A COLOR SCHEME.

"Do you mean to tell me she let the child sit there at the table with egg and cranberry sauce smeared on its face?" said one woman in horror-stricken tones.

"Yes," replied the other. "But it wasn't indifference. She said she hadn't the heart to wash the baby's face—it looked so artistic!"—Washington Star.

The property above described has for the most part been used as a country residence, and has on a portion thereof two dwelling houses, outhouses, stables, etc., all in good order and condition. A portion of the land's three pieces are leased, and bring in a rental of \$155 a year.

P. C. Jones, Esq., who is the owner of the other undivided half of said property, has consented to a sale of his half at the same time and place, and will join in the deed for his half interest with the Guardian, so that the party buying can secure the whole property. The five shares in the Hui of Waikane represent nearly a sixth interest in between 1,500 and 1,600 acres, consisting of Kula and rice land, the land being known as the Ahupuaa of Waikane.

Unset price for all the above property will be \$12,000.00.

Deeds at the expense of purchaser. Dated Honolulu, January 3rd, 1900.

For further particulars apply to Cecil Brown, Esq., or

J. F. MORGAN,

Auctioneer.

By order of Judge Perry, the above sale is postponed to Saturday, Feb. 10th, 1900, at the same hour and place.
